2023 ADEA AADSAS APPLICATION UPDATES

The 2022-23 ADEA AADSAS® (ADEA Associated American Dental Schools Application Service) application will open on May 10 and submissions will open on June 1.

Applicants can use the extra weeks to begin completing, reviewing and strengthening the application before submitting in June. Each year, ADEA AADSAS participating dental schools agree to make modifications to the process and application.

In the 2022-23 cycle, here are the changes applicants can expect to see:

ADEA DEP CASs: ADEA AADSAS, ADEA CAPPID, ADEA DHCAS and ADEA PASS

- DENTPIN: Provided clearer instructions to eliminate applicants entering the incorrect number.

ADEA AADSAS Application

- School Accreditation Status: Added a question that will provide applicant's colleges/universities attended accreditation status.
- Relatives in Dentistry: Added Niece and Nephew as a selection to the drop-down list in the application.
- Program Plans: Added this question in the application to allow applicants to select the year they plan to apply to dental school.
- Kansas City University College of Dentistry will join the 2022-23 ADEA AADSAS application cycle.

Fees - Application fees for the 2022-23 cycle are $264 for the first designation and $115 for each additional designation.

Overview

If you prefer not to enter all your coursework yourself, the Professional Transcript Entry Service (PTE) specialists can enter it for you for an additional fee. This service is only available for completed coursework from accredited schools. Coursework from unlisted schools, foreign coursework, and planned/in-progress courses are ineligible for PTE and must be entered by you.

Note that the PTE specialists only enter the information listed on your official transcripts and do not correct errors for coursework you have already entered. If you entered coursework and made a mistake or did not report an institution, these errors will be communicated to you during the verification process, at which point it will be your responsibility to correct them.

Please refer to the **Refunding/Withdrawing Your Application** page for further payment policies.

Fees

Fees for PTE are as follows:

- 1-3 transcripts: $69
- 4-6 transcripts: $95
- 7 or more transcripts: $145

These fees apply only to coursework entry and are in addition to regular application fees. Fee waivers and coupon codes are not available for PTE. Additionally, your PTE payment cannot be transferred to another cycle (e.g., re-applicants, applicants applying in multiple cycles, etc.).

Course Prerequisites: Applicants Prerequisites

- Applicants match courses to the school prerequisites
- This tab may or may not be available, depending on the selections of each dental school. If it is available, applicants will be given a list of the school's prerequisite course requirements and asked to designate which courses have been taken or are planned which fulfill the requirements. Applicants must first complete the Transcript Entry section before courses can be selected as prerequisites. Entering these courses does not mean an applicant has met the school's prerequisite requirements. Instead, the school is asking applicants to self-identify courses for their review. If an applicant has any questions regarding what the program will accept regarding these prerequisites, please contact the program directly. Applicants can learn more about prerequisites required by each dental school in the ADEA Official Guide to Dental Schools. https://www.adea.org/officialguide/

Philosophical Interests	Which philospher has influenced you the most?	Edmund Husserl
Philosophical Interests	Describe, in 500 words or less, the influence that philospher has had upon you	Essay

Husserl's concepts of phenomenology are really quite simple: each person brings his own pre-judgements, driven by his own experiences - to each new expereince that he has. These pre-judgements act as filters on a lense, coloring how we interpret and interact with the world. Once you accpt this as a given, it becomes simpler to frame the rationale behind what otherwise may appear as irrational behavior in *Beings* (used in the Hiedeggarian sense). This paradigm has allowed me to remain calm in others frustrating scenarios and greatly aided in my relations with others.

Admissions staff will see the answers by question, group and program.
