

GUIDE TO MAJORS AT YESHIVA COLLEGE: ENGLISH

Choosing a major can be stressful, but it is important to understand that you can pursue almost any career regardless of which major you choose. While there are some exceptions, most entry-level positions simply require general transferable skills—those that can be learned in one setting and applied in another. Relevant experience through internships and activities is generally more important to employers than a major. It is best to choose an area that you find interesting and where you have the ability to do well.

What is the English Major?

According to YU's course catalog, students who study in the Yeshiva College English Department "*develop both analytically and creatively as writers and thinkers, learning to express themselves with clarity and power.*" Students with this major will focus on reading and interpreting literature, writing both critically and creatively, and discussing numerous types of literary works. Excellence in writing is emphasized in all courses, in addition to those specifically devoted to the study and practice of expository and creative writing. All of these interpretive and expressive skills provide essential analytic and imaginative training for "any profession in which critical thinking, analysis, and the ability to communicate effectively are vital."
