

**WURZWEILER SCHOOL OF SOCIAL WORK  
YESHIVA UNIVERSITY**

**HUMAN BEHAVIOR AND THE SOCIAL ENVIRONMENT I  
SWK 6101  
FALL 2016**

**COURSE DESCRIPTION**

HBSE I is the first course in the sequence on Human Behavior. This sequence includes three courses, HBSE I, HBSE II and Psychosocial-pathology. This first course introduces students to the salient aspects of the human condition. The course emphasizes the reciprocal and transactional influences between people and their environment in the context of biophysical, familial, institutional, and societal forces and social factors. This interaction forms the basis of an ecological approach to human development. The course brings into focus current knowledge and theories regarding human behavior and the social environment as they influence each other.

The course is focused on issues that deal with the self in an ecological context, with specific attention to the study of individual, physical, intellectual, and temperamental endowment in transaction with socio-cultural norms and family patterns. The crises, struggles, conflicts, risks and opportunities associated with these conditions and transactions are explored. The emphasis is placed on differences and similarities in the life experience and lifestyles of men and women and minority groups. The relationship between individual experience and wider system forces is examined. Emphasis is placed on the capacity of the individual, groups and organizations, to improve their own and their community's life in response to macro-system forces.

In this first semester, students use class discussions, readings and assignments to develop increased awareness of themselves and a greater sensitivity to the impact of their use of self on others. Students are introduced to the notion of the self as a dynamically organized whole in transaction with, and intimately related to the total environment. The way in which the cognitive, affective and behavioral components of the self interact with the environment becomes a theoretical and experiential focal point for this first semester.

**COURSE COMPETENCIES**

This course addresses Council on Social Work Education Competencies #1, and #2.  
Competency #1 is measured with student outcome data.

**Competency 2- Engage Diversity and Difference in Practice**

Social workers understand how diversity and difference characterize and shape the human experience and are critical to the formation of identity. The dimensions of diversity are understood as the intersectionality of multiple factors including but not limited to age, class, color, culture, disability and ability, ethnicity, gender, gender identity and expression, immigration status, marital status, political ideology, race, religion/spirituality, sex, sexual orientation, and tribal sovereign status. Social workers understand that, as a consequence of difference, a person's life experiences may include oppression, poverty, marginalization, and alienation as well as privilege, power, and acclaim. Social workers also understand the forms and mechanisms of oppression and discrimination and recognize the extent to which a culture's

structures and values, including social, economic, political, and cultural exclusions, may oppress, marginalize, alienate, or create privilege and power.

Social workers apply and communicate understanding of the importance of diversity and difference in shaping life experiences in practice at the micro, mezzo, and macro levels;

Social workers present themselves as learners and engage clients and constituencies as experts of their experiences; and

Social workers apply self-awareness and self-regulation to manage the influence of personal biases and values in working with diverse clients and constituencies.

### **COURSE COMPETENCY OUTCOMES**

Competency #1 is measured with student outcome data.

#### **Competency 1- Demonstrate Ethical and Professional Behavior**

Social workers understand the value base of the profession and its ethical standards, as well as relevant laws and regulations that may impact practice at the micro, mezzo, and macro levels. Social workers understand frameworks of ethical decision-making and how to apply principles of critical thinking to those frameworks in practice, research, and policy arenas. Social workers recognize personal values and the distinction between personal and professional values. They also understand how their personal experiences and affective reactions influence their professional judgment and behavior. Social workers understand the professional history, its mission, and the roles and responsibilities of the profession. Social workers also understand the role of other professions when engaged in inter-professional teams. Social workers recognize the importance of life-long learning and are committed to continually updating their skills to ensure they are relevant and effective. Social workers also understand emerging forms of technology and the ethical use of technology in social work practice. Social workers make ethical decisions by applying the standards of the NASW Code of Ethics, relevant laws and regulations, models for ethical decision-making, ethical conduct of research, and additional codes as appropriate in context.

Social workers use reflection and self-regulation to manage personal values and maintain professionalism in practice situations;

Social workers demonstrate professional demeanor in behavior; appearance; and oral, written, and electronic communication;

Social workers use technology ethically and appropriately to facilitate practice outcomes; and

Social workers use supervision and consultation to guide professional judgment and behavior.

**MEASURE 1A-Recognize and manage personal values in a way that allows professional values to guide practice.**

**MEASURE 1B- Make ethical decisions by applying standards of the NASW Code of Ethics.**

**MEASURE 1C- Tolerate ambiguity in resolving ethical conflicts.**

## **II. INSTRUCTIONAL METHODS**

Learning will occur through a variety of experiences including readings in theoretical and fictional sources, didactic lectures, films and class discussions. Class sessions are designed to permit exploration, **not review**, of the content assigned readings, and of the students' responses.

## **III. COURSE EXPECTATIONS AND GRADING**

Students are expected to attend all classes and to be on time. Class participation is an important part of the learning process and ALL students are expected to participate in all assigned exercises and discussions. Students are expected to complete assignments on time, complete readings and to be prepared for related class discussions. You will be graded on the depth of your contributions and preparedness for class. In addition, all students must submit a weekly journal entry reflecting their reaction to assigned readings and class discussion. Each assignment will be weighted as follows:

- 10% Assigned readings in preparation for and participation in class discussions.
- 15% First Written assignment- "Personal Values in the Development of the Professional Self".
- 25% Quizzes and Reflective Journals
- 25% Midterm: Written assignment-"Application of ecological perspective to a film"
- 25% Final: Written assignment-"Self-Assessment through Journal Reflection"

**Required Texts: Buy these two books in a bundle using ISBN code: 978-1-4129-881-0.  
Cost: \$ 103.95.**

- Greene, R.R. (2008) *Human Behavior Theory and Social Work Practice*. 3rd edition. New York: Aldine De Gruyter. ISBN: 0-202-36181-0. Cost: \$35.68.
- Newman, B.M. and Newman, P.R. (2009). *Development Through Life: A Psychosocial Approach*, 10<sup>th</sup> edition. Belmont, CA: Wadsworth Cengage Learning. ISBN: 13:978-0-495-50647-8. Cost: \$145

#### **IV. COURSE REQUIREMENTS**

##### **ASSIGNMENT I.- Due Session 3-PERSONAL VALUES IN THE DEVELOPMENT OF THE PROFESSIONAL SELF**

All communication occurs within the context of a relationship; in professional social work this relationship is between the Helper and the Person seeking Help. This dynamic dyadic interaction between the Helper and Person being helped depends on at least a sense of rapport and takes place through the screens of histories and experiences of both Helper and the One being Helped.

Write a 3-4 page paper on "The Contribution of Personal Values in the Development of the Professional Self".

*How do your personal values influence the way you understand someone's request for help and the way you receive and respond to another's request for help?*

*Imagine yourself in the role of needing help. How might your developmental environment inform when and how you request help?*

*Imagine yourself in the role of Helper. How would your understanding of the client differ if you had no knowledge about his/her life experience and the environment that influenced their development? What personal values might enhance or hinder your ability to understand the contextual need of the client, listen to and accept the Other's reality and definition of the need?*

How might your personal experiences, the memory of the experiences or the reprocessing of the experience of seeking or providing help contribute to the development of a beginning professional social worker? How might this help you to delineate the difference between personal and professional approaches to helping? How might this contextual framework help you to develop an understanding of the client?

**Instructions:** (1) Spend some time thinking about the above questions and comments. Allow yourself to become involved in and play with the memory experiences. Note the thoughts, images, feelings that emerge. Note your response to the assignment. (2) Write a 3-4, (**no more**) page paper responding to the above comments and questions. This is personal and experiential. **Do not use literature or citations in this paper.** (3) Due Date: 3<sup>rd</sup> class. (4) This paper is reflective, therefore the content is not graded. However, the paper will be graded on how well you have presented ideas in writing, organization of the paper and grammar (5) **All papers must be typed, double spaced. The cover page must be attached to the back of the paper so that the name of the writer is unknown until after the paper has been read.**

##### **ASSIGNMENT II- REFLECTIVE JOURNALS**

Beginning with the first class session, students must write and submit a weekly journal entry reflecting on your reactions to the assigned readings and experience in the human behavior class. This should be an organized reflection with a special emphasis on personal values and value conflicts. You are expected to integrate class discussion, practice and self-reflection in these journals; **discuss at least one reading for each journal entry. At times, the professor may send "prompt" questions to set the tone of the response for that week. Journals must be submitted via email.**

### Assignment III- QUIZZES

There will be a quiz given either weekly or bi-weekly focused on the content of the assigned readings. Quiz scores will be summed so that there is one score (grade) equaling a percentage of the total number of points allowed. **Dates will be given in class by the professor.**

### ASSIGNMENT IV- MIDTERM – APPLICATION OF THE ECOLOGICAL PERSPECTIVE TO A FILM.

This assignment is a combination of demonstration of mastery of content as well as application of content to a client/case situation. All written assignments require understanding of theoretical concepts and materials presented in classroom and readings. This paper is an opportunity for you to apply the material learned this semester

Choose from the following list of films **ONLY**. You must identify to the professor the film chosen prior to writing the assignment.

- *The Boy in the Striped Pajamas*
- *Slum-dog Millionaire*
- *The Kite Runner*
- *The Secret Life of Bees*
- *The Perks of Being a Wallflower*

Theoretically define and identify the five (5) systems of Bronfenbrenner's Ecological Perspective as noted in the film. **Do not summarize the film.**

Using the multi-dimensional and life cycle perspectives discuss how the varied systems interact to inform the functioning and development of the main character (child) in the film. There should be a particular focus on environmental press; the interlocking circles of risk, resource and resilience, nature and nurture and value conflicts.

Choose a theme, then explore and analyze how the theme played out in the various systems' and how this influenced the individual's development. Remember the various systems are connected to one another and have reciprocal impact effectively bringing about change in each other as well as having an impact on the development of the individual.

### THEMES

Family conflicts  
Stigma  
Anxieties  
Negotiating cultural differences  
Violence  
Social construction of identity  
Parent-child relationships  
Religious training  
Classism

Power  
Guilt  
Gender role models  
Mothering and fathering

Vulnerability of support networks  
Loyalty  
Trust  
Intergenerational trauma experiences  
Initiative and responsibility  
Victimization  
Double bind of class and ethnicity  
Ethnic vulnerability

You may use any and all of the required readings as well as **4 additional external scholarly readings necessary for your analysis**. This is an analysis and you must apply the didactic material to the life experience shown in the film. Although you will focus on one character this paper is also about systems and the probable systemic impact on development. **Do not use online computer sites such as Wikipedia or sites that provide psycho-educational information. Use professional scholarly journals and texts only!**

The theme chosen should be identified as a common thread that runs through the systems. Remember an occurrence in one part of the system has an impact on all other parts of the system.

This paper should be presented in a scholarly fashion. Make sure to include an **Introduction** and a **Conclusion**. You may use headings to organize your paper if it helps. Number your pages. Please include citations and references which must conform to APA #6, academic style. This paper should be 10-15 pages, (**NO MORE**). Proofread your paper before submission. Due date: 9th session. **LATE PAPERS ARE NOT ACCEPTED**

**ASSIGNMENT V-FINAL WRITTEN ASSIGNMENT-SELF ASSESSMENT THROUGH JOURNAL REFLECTION. : Due Date: Session 13**

Using the multidimensional and life cycle perspectives as your theoretical orientation, write a brief (10 pages), insightful analysis of your experience and what you have learned about yourself over the course of the semester. This assignment requires an integration of the material we have discussed in class including incorporating the 5 levels of the ecosystem and environmental press as they pertain to your understanding of the developing self.

In preparation for doing this you should (1) review your journals, (2) consider the themes we have discussed during the semester

**Consider & Respond to the following:**

- Any changes you have experienced in your sense of self and your values over the course of the semester. For example – are there any changes in how you think about yourself and clients since you first began this class?

*Areas of consideration:* (this is not all inclusive & you should examine course description & competencies for ideas on how you might evaluate yourself & your journals for this assignment).

- Has your understanding of beginnings evolved? Changed? Stayed the same? Be specific.
  - Do you look at your family system or families in general with a different lens or understand the impact of family on development any differently?
  - What about Trauma, risk, resilience? Has your understanding of these concepts broadened or changed?
  - What about the impact of the various systems of the ecological perspective – do you have a different understanding of them than previously?
  - What about the nature of self and all that contributes to development? Has any of what we have read/discussed influenced your understanding of the nature of self? Be specific, what and how?
  - Think about crisis, struggle, change, conflicts, risks & opportunities in the environment . . . has your understanding and sensibility about any of these been impacted?
  - How about the individual experience and the wider system forces in terms of development? Any shifts in thinking or understanding about how they impact one another?
- Identify a particular human behavior theory or perspective discussed in class or readings that you are partial to? (1) How did this theory contribute to your understanding of clients or change your understanding of clients? (2) How did this theoretical perspective challenge your personal and/or professional values? Be specific. (3) How was the perspective helpful to you in managing value conflicts? (4) How was the perspective helpful to you in making ethical decisions based on the NASW Code of ethics?
  - The evaluation of your journals will consider:
    1. Your understanding of the material you have chosen to respond to (class discussion & readings) in terms of the ecological view of person-in-environment and human difference.
    2. Demonstrated understanding of multiple forces that distinctly impact individual development.
    3. The connection you make between material (discussion & readings) and work with clients (individual, group or community).
    4. Demonstrated self-awareness & ability to take-in others in terms of point of view and perspective.
    5. How well you were able to present your ideas in written form.

**All students must complete ALL class assignments, pass quizzes, midterm and final papers to receive a passing grade for the course. DO NOT make last minute requests for special accommodations for completion of work; if accommodations are necessary this must be thoroughly discussed with the professor with sufficient time to explore options and for the professor to plan.**

### **Competency 1- Demonstrate Ethical and Professional Behavior**

## Competency Measures

**1A-Recognize and manage personal values in a way that allows professional values to guide practice.**

**1B- Make ethical decisions by applying standards of the NASW Code of Ethics.**

**1C- Tolerate ambiguity in resolving ethical conflicts.**

## **V. PLAGIARISM**

The school will not condone plagiarism in any form and will sanction acts of plagiarism. A student who presents someone else's work as his or her own is stealing from the authors or persons who did the original thinking or writing. Plagiarism occurs when a student directly copies another's work without citation; when a student paraphrases major aspects of another's work without citation; and when a student combines the work of different authors into a new statement without reference to those authors. It is also plagiarism to use ideas and /or work of another student and present them as your own. It is not plagiarism to formulate your own presentation of an idea or concept as a reaction to someone else's work; however, the work to which you are reacting should be discussed and appropriately cited. Any student who can be shown to have plagiarized any part of any assignment in this course will automatically **FAIL** the course and will be referred to the Associate Dean for disciplinary action that may include expulsion.

## **VI. HIPAA ALERT**

In line with HIPAA regulations concerning protected health information, it is important that you understand that any case information you present from your work will need to be masked so that the person cannot be readily identified. This means that any information that would allow the person to be identified must be changed or eliminated. . This may include name, date of birth, any information unique to the individual that would allow for identification including diagnosis, race, ethnicity or gender. Information such as race, ethnicity, gender and diagnosis may be included if it will not allow for identification.

## **VII. CONFIDENTIALITY**

Given the nature of class discussion and the presentation of case material, as well as personal revelation in class, students are reminded that the same commitment to confidentiality with clients extends to classmates. **WHAT IS SHARED IN CLASS REMAINS IN CLASS**

## **VIII. STUDENTS WITH DISABILITIES**

Students with disabilities who are enrolled in this course and who will be requesting **documented disability-related accommodations** must make an appointment with the Office of Disability Services, Rochelle Kohn, Beren Campus, 917-326-4828, [rkohn1@yu.edu](mailto:rkohn1@yu.edu), Abby Kelsen, Wilf Campus, 646-685-0118, [akelsen@yu.edu](mailto:akelsen@yu.edu), during the first week of class. All documentations for possible accommodation must be submitted to the professor by the **third** class. **All possible accommodations must be discussed and negotiated with the individual professor; specific accommodations are not automatic.**

## **IX. E-RES (Electronic Reserve)**

eReserve is Yeshiva University's on-line web based system used to provide access to journal articles, book excerpts, and other course materials. Most articles listed in each syllabus are

available on eReserve. You can access full text articles from your home or from a university computer.

### **How do I Use E-RES?**

1. Go to library's online resources page: [www.yu.edu/libraries](http://www.yu.edu/libraries),
2. Click on online resources
3. *Click on E-RES.*
4. *If you are off-campus, at this point you will be prompted for your Off\_Campus Access Service login and password.*
5. Click on Search E-RES" or on "Course Index," and search by instructor's name "Search E-RES" or on "Course Index," and search by instructor's name, department,\_course name, course number, document title, or document author.
6. Click on the link to your course
7. Enter the password given to you by your instructor. Read the copyright guidelines that appear on the screen, and click on "Accept" to proceed.
8. Locate and click on the item you wish to view. Titles beginning with "A", "An", or "The" are alphabetized under "A" and "T" respectively.
9. When the article text or book record appears on the screen, you can print, email, or save it to a disk.
10. If you have any problems, please contact-eres@yu.edu.

To view documents that are for pdf format, the computer you are using must have Adobe Acrobat Reader software. You can download it FREE at [www.adobe.com/products/acrobat/readstep2.html](http://www.adobe.com/products/acrobat/readstep2.html)

### **Course Outline**

#### **Theme I- Orientation to the course: Beginnings and Change**

**Session (1) Beginnings and change:** Beginnings relate to the student and the client. We live in a systemic society and we develop across a continuum informed by different experiences, values, relationships and the environment. Beginnings may include conflicts, anxieties, losses, excitement, struggles and aspirations; these inherent dimensions are organized and informed by our life experiences.

#### **Required readings:**

- Garbarino, J (1992) *Children and Families in the Social Environment*, 2<sup>nd</sup> edition, New York: Aldine de Gruyter Chapter 1-"Beginning at the end, Ending at the beginning" 10
- Stein, G.(1964) *The Making of Americans*, New York: Harcourt Brace & World, Inc. 40-49
- Golan, N. (1995) The nature of transitions and the change process in Levitz, L. (Ed)
- *Reflections on Human Behavior in the Social Environment*, 2<sup>nd</sup> edition, Copley Publications

- Wheelis, A. (1995) Goodbye mama in Levitz, L. (Ed) *Reflections on Human Behavior in the Social Environment*, 2<sup>nd</sup> edition, Copley Publications
- Wheelis, A. (1995) How people change in Levitz, L. (Ed) *Reflections on Human behavior in the Social Environment*, 2<sup>nd</sup> edition, Copley Publications

## **Theme II – Multidimensional Approach and Life Course Perspectives:**

### **Sessions (2, 3, 4) Theory and Broad Definition of Systems: Development as Change:**

The person in environment construct has been used as the foundation for developing a multi-dimensional approach. No one dimension of the person or the environment will tell the whole story; it is the interaction of all the dimensions folded into the construct of the person-environment relationship that tells the story. This story is told over time and within a specific time period; understanding the importance of time helps us to understand the constant changes in the person-environment transactions.

### **Required Readings:**

- Garbarino, J. (1992) *Children and Families in the Social Environment*, 2<sup>nd</sup> edition, New York: Aldine de Gruyter Chapter 2-“The Ecology of Human Development” 11-34
- Hutchison, E.D. (2015) *Dimensions of Human Behavior: Person and Environment*, (5<sup>th</sup> edition) California: Sage Publications. Part I: A Multidimensional Approach for Multifaceted Social Work

Chapter 1- “Human Behavior: A multidimensional Approach” 1-34.

Chapter 2- “Theoretical Perspectives on Human Behavior” 35-76

Part III: The Multiple Dimensions of Environment

Chapter 7-“The Physical Environment” 225-256

Chapter 8- “Culture” 257-290

Chapter 9- “Social Structure and Social Institutions” 291-336

Chapter 10-“Families” 337-380

Chapter 11-“Small Groups” 381-412

Chapter 12-“Formal Organizations” 413-445

Chapter 13- “Communities” 447-477

Chapter 14- “Social Movements” p. 479-512

Hutchison, E.D. (2015) *Dimensions of Human Behavior: The Changing Life Course*, (5<sup>th</sup> edition) California: Sage Publications. Chapter 1-“A Life Course Perspective” 1-40

## **Theme III- Theoretical Perspectives of Human Behavior (Sessions 5, 6)**

### **Required Reading**

Hutchison, ED (2015) *Dimensions of Human Behavior: Person and Environment*, (5<sup>th</sup> edition) California Sage Publications Chapter 2-“Theoretical Perspectives on Human Behavior” 35-75

## **Theme IV-The Self in an Environmental Context, Trauma, Risk & Resilience (Sessions 7, 8)**

Identification and exploration of Bronfenbrenner's ecological perspective of development provides a lens through which we understand our clients. All systems have inherent risks and developmentally we learn to negotiate the systems in spite of and because of the risks. All systems also include resources and the interaction between risks and resources help us to develop coping skills, change and grow. This occurs through the process of response to stress, crisis and trauma experiences.

### **Required Readings:**

- \*Dewan, Shaila (2007) "Using crayons to exorcise Katrina" *New York Times*, 9/17/07
- \*Garbarino, J. (1992) *Children and Families in the Social Environment*, (2<sup>nd</sup> edition). New York: Aldine de Gruyter.

Chapter 2-"The ecology of human development" 11-34

Chapter 3- "Socio-cultural Risk and Opportunity" 35-70

- \*Greene, R.R. (2008). *Human Behavior Theory & Social Work Practice*, (3<sup>rd</sup> edition) New Brunswick, New Jersey: Transaction Publishers

Chapter 9-"Social Construction" 232-270

Chapter 11-"Risk and Resilience Theory" 315-342

- \*Herman, J. (1997). *Trauma and Recovery*, New York: Basic Books.  
Chapter 2-"Terror" 33-50  
Chapter 3-"Disconnection" 51-74  
Chapter 5- "Child Abuse"

**Session 5: Application of broad systems to a film:** *Boys of Baraka*. The class will view this film together.

### **Learning Theme V – Individual Person as a System**

**Session (9, 10, 11, 12, 13) Definition of the Person as a System Developing**

**Through Different Stages**

**Introduction of the person as a system: Multiple Dimensions of a Person:** Understanding the different dimensions of a person from a bio-psychosocial perspective provides a way of understanding development throughout the life span. The Eriksonian paradigm is an excellent example of development over the life span.

**Choice and Will-** Socio-cultural factors inform our identification and understanding of our choices and the capacity to exercise our will.

### **Required Readings:**

- Bernstein, J, (1995) Taking Rachel Swimming in Levitz, L. (Ed.) *Reflections on Human behavior in the Social Environment*, 2<sup>nd</sup> edition. Copley Publications

- \*Newell, Anthony, (2008) “Free choice is not elitist” *The Times Higher Education Supplement: The 1870*. 11/6/08:30
- \*Strauss, Marcy (2001) Reconstructing consent.” *Journal of Criminal Law and Criminology*, 92, ½ (Fall 2001) pp 211-27

**The Nature of Self:** How do we know who we are?

### **Required Reading:**

- \*Belluck, Pam (2009). “Yes, looks do count”, *New York Times*, 4/26/09
- Gabarino, J. (1992) *Children and families in the social environment*, (2<sup>nd</sup> edition). New York: Aldine de Gruyter. Afterword “What does it mean to be human?” 328-335.

\*Poisson, Jayme, (2011) “Parents keep child’s gender secret” *Toronto Star*, 5/21/11

**The Biological Person:** Biological factors may restrict and/or enable and circumscribe the parameters of human development and individual abilities.

### **Required Readings**

- Hutchison, E. D. (2015) *Dimensions of Human Behavior: Person and Environment*, (5<sup>th</sup> edition) California: Sage Publications. Chapter 3- “The Biological Person” 79-114

**The Psychological Person:** Cognition, emotions and affect are dynamic dimensions of the personality. There is a special relationship between intelligence, coping and decision making across the life cycle. In addition, ego capacities are the focal points of our psychological development.

### **Required Readings**

- Hutchison, E. D. (2011) *Dimensions of Human Behavior: Person and Environment*, (4<sup>th</sup> edition) California: Sage Publications. Chapter 4- “The Psychological Person: Cognition, Emotion and Self” 115-143.

**The Psychosocial Person and the Spiritual Person:** The psychosocial perspective is a traditional social work perspective important in understanding human behavior. However, it is important to add to this a person’s spiritual understandings and yearnings. This refers to one’s search for meaning, purpose in life and the need to connect to others in the world. It is a process and therefore, develops over time. This is particularly important in understanding the traumatic responses of people. .

### **Required Readings**

- Hutchison, E.D.(2015) *Dimensions of Human Development: person and Environment* (5<sup>th</sup> edition). California: Sage Publications.

Chapter 5- “The Psychosocial Person: Relationships, Stress and Coping” 145-176.

Chapter 6- "The Spiritual Person" p. 177-192.

**Session 14: Wrap up and preparation for HBSE II with a focus on development through stages from conception through old age.**
