We believe in doing things differently. In most education programs, we are taught to believe that doing this work = sacrificing (believing you are meant to work with any client, having a broad niche, long hours, huge caseloads, etc). Be Morr prides itself in empowering our team to choose doing clinical work that feels nourishing to them. That's how you walk in your purpose.

We are looking for a therapist who practices through a culturally sensitive lens and has a strong understanding on how that impacts identity, treatment, assessment, etc. We work with adult Women, in a private setting, who are motivated about changing their lives. If you are passionate about flexing your great clinical skills, but don't have interest in the admin work, we got you covered. Our team handles billing, client communications, compliance, and marketing. Our note templates simplify documentation as well!

We are looking to hire a fee-for-service clinician who has the capacity to work at least 10-12 hours/weekly. Those interested in a macro case load, 15 clients or more a week, are compensated at a higher rate.

We are a virtual practice and sessions are provided using telehealth. We provide our clinicians with client referrals.

Our ideal candidate is someone who is proactive, detail-oriented, and takes initiative in communicating their needs! We prefer a candidate who is willing to commit to at least a 1 year contract.

Benefits of joining the be Morr Fam:

- Learn from and be a part of a team of dynamic clinicians
