The Yeshiva University Career Center conducted a post-graduation survey of 579 undergraduate students, who completed YU in the 2018-2018 academic year as indicated by Banner and the Registrar’s office. Through the outreach efforts of the Career Center, including online and phone surveys, internal data on YU employment and graduate school enrollment, as well as reliable external sources such as LinkedIn, the overall results are included for 80% (N=463) of the Class of 2018. The methodology included data for Summer 2017, January 2018, and May 2018 graduates, consistent with guidelines set by the National Association of Colleges and Employers (NACE).

SUMMARY

93% of undergraduate Class of 2018 had post-graduation destinations either at graduation or within six-months of graduating.

80% of graduates responded to survey or were accounted for through reliable internal and external sources (knowledge rate).

90.5% of graduates reported that their position was strongly or moderately related to their field of interest.

74% of graduates held one or more internships/part-time jobs during their time at YU.

The Yeshiva University Class of 2018 undergraduate graduating students demonstrate great promise as evidenced by the 93% post-graduation destinations career outcomes rate. Whether employment or graduate school was their intended goal, Yeshiva University recent graduates have achieved positive career results. Full-time employment increased by 5% from last year, with 92% (N= 206) of those employed holding full-time positions. In the graduate education outcomes data, law led as a top chosen field of study, and 38% of those students seeking graduate education were entering Master’s programs.

Overall, 57% of graduates reporting starting salaries indicated they were earning $50,000 or more. Sixty-five percent of Sy Syms School of Business graduates were at starting salaries earning $50,000 or more, a notable 9% increase over the prior year.
