

Dean's Reception - A Memorable Evening

On April 2nd, Azrieli hosted a dean's reception dinner focused on remembering the late Azrieli professor Rabbi Dr. Chaim Feuerman by discussing **Balance in Education**. Dean Novick led the 30 participants in an engaging activity to "slice the pie" to show "portions of focus" on various topics, and to debate the blend of the topics that they believe need to be shared within Jewish education. Students and guests held lively discussion and debate on their different perspectives.

Dr. Laya Salomon, Director of the MS and PELE Programs, introduced the event by sharing heartfelt stories of how Rabbi Dr. Feuerman inspired and mentored her from her earliest studies as an Azrieli Master's student through her Doctoral studies, and when she began as a professor. Showing appreciation for her habit of doodling and coloring on everything she could, Dr. Feuerman gave her many gifts related to her artistic talents.

Azrieli is planning to do many more of these events in future. Stay connected to hear more about these great events, or find opportunities to join!
