SECTION 6: LETTERS OF EVALUATION

The screenshot shows the AMCAS application portal with a modal window titled "Add Letter of Evaluation/Recommendation". The modal contains the following text:

Many medical schools determine whether or not an applicant has met their letter of evaluation/recommendation requirements by the type of letters they receive in support of an application. For example, a medical school may require a committee letter OR three individual letters in support of your application.

Please review the AMCAS Applicant Guide for more information about Letters of Evaluation.

Please identify the type of letter you wish to enter. If you are uncertain as to the type of letters provided by your school/institution, please ask your pre-health advisor or career center prior to answering this question.

Committee Letter:
A committee letter is a letter authored by a pre-health committee or pre-health advisor and intended to represent your institution's evaluation of you. A committee letter may or may not include additional letters written in support of your application. A Committee Letter is sometimes called a composite letter.

Letter Packet:
A packet or set of letters assembled and distributed by your institution, often by the institution's career center.

Individual Letter:
An individual letter refers only to a letter authored by, and representing, a single letter writer. If you have already included an individual letter within either a committee letter or letter packet, you do not need to add a separate entry for the individual letter.

Select a meaningful Letter Title, as you may need this title later to identify a letter. For example, if this letter were from the University Of X, with a primary contact of John Doe, and you intend to have this letter sent only to MD/PhD programs, you might create a title of "UX_Doe_MD_PhD".

Letters of Evaluation*

Important Information about Letters:

- You may submit your application before creating letter entries in this section.
- You may submit your application prior to letters being received by AMCAS.
- Letter deadlines are established individually by each medical school, so check their websites for deadline dates.
- Letters sent to AMCAS cannot be released to applicants or letter authors under any circumstances, and are provided only to medical schools that are participating in the AMCAS Letter Service.
- Re-applicants should note that letters received by AMCAS do not rollover to later application years, so advise your letter authors to keep a copy of their letter.
- The AAMC publishes a list of guidelines for letter of evaluation authors. A link to the guidelines is on the Letter Request Form you will provide to your letter authors.

* You must contact schools that do not participate in AMCAS Letters to determine their letter of evaluation requirements. AMCAS will not forward your letters to these schools. See the list of participating schools.

Watch "How to Add Letter of Evaluation Entries & Assign them to Medical Schools" Tutorial

Watch "How to Match Letter of Evaluation Entries & Assign them to Medical Schools" Tutorial

Note: Your letter writers must send your letters through AMCAS if you are applying to one or more schools participating in the AMCAS Letters Service.

Please create one letter entry for each Committee letter, individual letter, or Letter Packet being sent to AMCAS. Most medical schools participate in the AMCAS Letter Service. Please review additional information about letters of evaluation.
