Student Defined Course Objectives

Student’s name: ____________________________

Advisor’s name: ____________________________

This course continues the work related to your dissertation. The course is intended to help those who have not yet completed their proposals to do so and those who have had their proposals approved, to carry out their dissertation research. For those who have not yet completed their proposals, the focus of my assistance will be the Research Questions and Hypotheses and Methodology. If needed, I will also work with you on the first four sections of your proposal. For those who have had their proposals approved, my help will be directed toward carrying out the research, including data entry and analysis, the presentation of data, and interpretation of findings.

As usual, the work in this course will be closely coordinated with the work you do with your advisor.

This year the course will be organized as it was last semester. I will NOT be at Belfer every Thursday. See below for days that I will be at Belfer and working from home. On the Thursdays that I am not on campus we will conduct our work via email and telephone.

I will expect you to sign up for as many face-to-face meetings as you can. Both face-to-face and telephone meetings will be approximately one hour long. The total number of sessions will vary according to the needs of the student. Each of the sessions (face to face and telephone) is intended to be a step toward completing your overall objectives for the semester. This document provides a way of structuring the sessions. At each session, objectives for the next session will be identified. Each session will be evaluated by the instructor and student according to how well the session objectives were accomplished. You will receive a grade of “S” (satisfactory) if the overall objectives and individual session objectives are satisfactorily completed. Your grade will also depend on keeping the scheduled appointments.
### II. OBJECTIVES FOR INDIVIDUAL SESSIONS
