Pre-requisites for MS in Accounting and the MS in Taxation.

Students who do not have an undergraduate degree in accounting but in another business discipline will be required to take courses in accounting during the summer(s) to satisfy New York State Licensure Requirements. Once your application is received, your transcript will be evaluated to create a schedule that will address your specific needs. Students should begin matriculation with 27 business credits.

If courses are not taken at YU, they must be taken at an institution that is AASB accredited and submit their transcript to YU. Must earn a C or better for credit.

Students who graduated from the Sy Syms School of Business with an Accounting degree, must complete 24 credits during the fall and spring semesters and will be granted six transfer credits for Federal Income Tax I and II.

Students who did not attend the Sy Syms School of Business or anyone who may have attended Sy Syms but did not major in Accounting will be required to take six credits of taxation.

Classes taken will depend upon a review of the transcript by the admissions committee. These classes may require an additional summer semester to complete.
