

RefuahHealth, a federally qualified community health center serving the lower Hudson Valley in New York State, seeks **Licensed Clinical Social Workers** to join its fast paced and ever-expanding Behavioral Health Department. All candidates should be licensed in the State of New York and eager to provide psychotherapy and expand their professional experience and skill set.

RefuahHealth's Behavioral Health Department focuses on whole person, integrated care. Our dynamic team of BH providers share resources and knowledge. Social workers joining RefuahHealth will have the opportunity to interact with peers practicing at all levels and develop psychotherapeutic skills under individualized supervision.

Our BH department is led by acclaimed psychiatrist Dr. Michael Bunzel, MD, who spearheaded innovative mental health models and founded state-of-the-art psychiatric facilities abroad. Under Dr. Bunzel, we aim to grow our mentorship program, and will soon offer training and supervision in multiple modalities, while serving a diverse patient population from children to adolescents, adults and seniors. We currently offer a wide array of BH services, from individual therapy to couples and family sessions, with a focus on expanding our offerings to multiple psychopathological entities.

We are the ideal place for accomplished psychotherapist to gain valuable experience and hone their skill set while learning new modalities and treatment options. Providers enjoy an excellent benefits package that includes health insurance, life insurance, paid time off, disability insurance, paid holidays and 403B benefits.
