STERN COLLEGE FOR WOMEN • ACADEMIC ADVISEMENT CENTER

Peer Tutoring Center - Information for Students

The Peer Tutoring Center provides one-to-one tutoring as a service to the students of Stern College to help them achieve their academic goals.

Peer tutoring is offered in a variety of subjects each semester often including Biology, Chemistry, Computer Science, Genetics, Hebrew, Math/Calculus, Microbiology, Organic Chemistry, Physics, and Sense of Music. (Please see the appointment website for current list of subjects)

Client Responsibilities:

- Students may make appointments at <https://yu2.mywconline.com/> until 24 hours before a session.
- Appointments may only be made 2 weeks in advance and students are limited in the number of sessions they may request (1 per subject per week).
- A student who cannot keep her appointment must cancel online, preferably no later than midnight the night before, and notify her tutor so another student can benefit.
- For an emergency last-minute cancellation, the student should email both her tutor and jillian.moss@yu.edu
- Students who miss appointments repeatedly may be blocked from scheduling further sessions.
- Tutoring is limited to students currently enrolled in the specific courses for which they have requested tutoring. Students may not utilize the Tutoring Center for any other purpose, including review for the MCAT, DAT, etc.
- As a courtesy to other students, please avoid overlapping slots (ex. 3-5pm should be two discrete slots of 3-4 and 4-5pm).

Location:

On weekdays, from 9am-7pm tutors and students meet in 215 Lexington, in the lobby waiting area on the 6th Floor. Tutoring on Sundays takes place in the 245 Lexington building.

We look forward to helping you become the best student you can be! Feel free to contact Ms. Moss (jillian.moss@yu.edu) with questions or comments.
