

**WURZWEILER SCHOOL OF SOCIAL WORK`
YESHIVA UNIVERSITY**

**SOCIAL WORK PRACTICE WITH THE MILITARY
SWK 6810 - ON-LINE
Spring, 2019**

COURSE DESCRIPTION

Social Work Practice with military families and soldiers is an elective course that focuses on the specific problems of those who serve in the military with a focus on the needs of family members and children and the response of social workers to those needs. The course will explore the nature of war, its impact on those who are wounded - physically and mentally -- and their loved ones/caregivers. The course content will look at theories, research and intervention strategies for social workers who choose to work with this population.

Students will be introduced to a theoretical orientation to combat stress management which acknowledges the stressors of war and the adaptations made by those engaged in battle. In addition, students will be provided with an overview of the management of various war related physical and mental health challenges for the returning war veteran. Particular emphasis will detail the impact of the current wars in Iraq and Afghanistan on returning veterans and their family members with emphasis on the management of those suffering with PTSD, Traumatic Brain Injury and substance abuse problems. Intervention strategies specifically designed for work with the war injured and their families/caregivers will be introduced.

Readings from the text will be used as well as numerous journal articles to further understanding of the scope of military related social work practice.

COURSE COMPETENCY OUTCOMES

At the conclusion of this course, students will be able to:

1. Identify as a professional social worker and conduct oneself accordingly. They will employ a strengths-based perspective based in person-in-the environment. They will engage in life-long learning, supervision, and consultation to enhance their knowledge and skills needed to work effective with service members, veterans and their families and communities (CSWE Advanced Competency 2.1.1).
2. Apply social work ethical principles that guide professional practice. They will be able to recognize their personal values, make informed ethical decisions, and manage professional boundaries. They will be able to recognize and understand the military culture with an emphasis on mission, service, honor, and cohesion and the potential value and ethical issues that can be provoked (CSWE Advanced Competency 2.1.2)

3. Apply critical thinking to inform and communicate professional judgments. They will analyze relationships between the client, family and worker and use appropriate practice models. They will understand the unique relationships between the client, family, and the military (CSWE Advanced Competency 2.1.3).

4. Engage diversity and difference in practice. They will manage potential conflicts between personal feelings and institutional responsibility, recognize and communicate their understanding of the importance of difference in shaping lives, gain self-awareness to eliminate their personal bias. They will communicate with a culturally responsive approach toward service members (CSWE Advanced Competency 2.1.4).

5. Locate, evaluate, and analyze current research literature related to military social work and evaluate research to practice with service members, veterans, their families and their communities. (CSWE Advanced Competency 2.1.6)

6. Apply knowledge of human behavior and the social environment. They will use conceptual frameworks to guide the process of assessment, intervention and evaluation including a recognition of the impact of military transitions and stressful life events throughout the individuals' and family's life course. (CSWE Advanced Competency 2.1.7).

7. Respond to contexts that shape practice. Practitioners in military social work are knowledgeable about the histories, traditions, and mission of those who serve/served and the current trends in the service delivery system to meet the needs of service members veterans, their families and communities. (CSWE Advanced Competency 2.1.9).

8 Engage, assess, intervene and evaluate with individuals, families, groups, organizations and communities . They will engage, asses, intervene, and evaluate their clients (CSWE Advanced Competencies 2.1.10 a, b, c, and d).

PLAGIARISM

Students should remember that the School will not condone plagiarism in any form and will sanction acts of plagiarism. A student who presents someone else's work as his or her own work is stealing from the authors or persons who did the original thinking and writing. Plagiarism occurs when a student directly copies another's work without citation; when a student paraphrases major aspects of another's work without citation; and when a student combines the work of different authors into a new statement without

reference to those authors. It is also plagiarism to use the ideas and/or work of another student and present them as your own. It is not plagiarism to formulate your own presentation of an idea or concept as a reaction to someone else's work; however, the work to which you are reacting should be discussed and appropriately cited. Any student who can be shown to have plagiarized any part of any assignment in this course will automatically **FAIL** the course and will be referred to the Associate Dean for disciplinary action that may include expulsion.

HIPAA ALERT

In line with the new HIPAA regulations concerning protected health information, it is important that you understand that any case information you present from your work, will need to be de-identified. What this means is that any information that would allow another to identify the person needs to be changed or eliminated. This includes obvious things like names and birth dates but may also contain other information that is so unique to the person that it will allow for identification, including diagnosis, race/ethnicity, or gender. If diagnosis, race/ethnicity, or gender is directly related to the case presentation it can be included if it will not allow for identification.

CONFIDENTIALITY

Given the nature of classroom discussion and the presentation of case materials and at times personal revelation in class, students are reminded that the same commitment to confidentiality with clients extends to classmates. What is shared in class stays in class.

STUDENTS WITH DISABILITIES

Students with disabilities who are enrolled in this course and who will be requesting documented disability-related accommodations are asked to make an appointment with the Office of Disability Services, Rochelle Kohn, Beren Campus, 917-326-4828, rkohn1@yu.edu, Abby Kelsen, Wilf Campus, 646-685-0118, akelsen@yu.edu, during the first week of class. After approval for accommodations is granted, please submit your accommodations letter to Disability Services Office immediately.

E-RES (Electronic Reserve)

Many of the articles mentioned in the curriculum are available on electronic reserve [**E-RES**]. You can access the full text articles from your home or from a university computer at no charge.

How do I Use E-RES? - ERES articles are also available through Canvas under Library and Research Services

1. Go to the library's online resources page:
http://www.yu.edu/libraries/online_resources.asp
2. Click on E-RES. If you are off-campus, at this point you will be prompted for your Off Campus Access Service login and password.

3. Click on "Search E-RES" or on "Course Index," and search by instructor's name, department, course name, course number, document title, or document author.
4. Click on the link to your course.
5. Enter the password given to you by your instructor.
6. Locate and click on the item you wish to view. Titles beginning with "A", "An", or "The" are alphabetized under "A" and "T" respectively.
7. When the article text or book record appears on the screen, you can print, email, or save it to disk.

To view documents that are in pdf format, the computer you are using must have Adobe Acrobat Reader software. You can download it FREE at www.adobe.com/products/acrobat/readstep2.html

REQUIRED TEXT

Beder, J. (Ed.) (2017) *Caring for our Military*. New York: Routledge. ISBN: 978 1138119529. New paperback \$50.00, also available as an e-book at Barnes and Noble.

Beder, J. (Ed.) (2012). *Advances in Social Work Practice with the Military*. New York: Taylor & Francis. ISBN: 13: 9780415891349. New paperback: \$37.28 at Barnes & Noble.

SUGGESTED TEXTS

Figley, C, Nash, W. (Eds.) (2007). *Combat stress injury: Theory, research, and management*. New York: Routledge. ISBN: 1397804594334. New \$35.14, used \$29.89 at Barnes & Noble.

Herman, J. (1997). *Trauma and recovery: The aftermath of violence - From domestic abuse to political terror*. New York: Basic Books. ISBN: 13-978046508703. New \$12.60, used \$ 7.95 at Barnes & Noble.

Rubin, A., Weiss, E., & Coll, J. (Eds) (2013). *Handbook of Military Social Work*. Wiley. **This is an e-book available through the YU library**; search for book title and download assigned chapters.

ASSIGNMENTS

- 1) Each student will interview an active service member or Veteran and will write a paper detailing the responses, concluding with an impression page about the person and what you have learned from doing the interview. How did what you learned during the interview, correspond with materials you have been reading in the course. While the answer to each question is important, I am more concerned about how you reacted to what you heard and what your feelings were as you interviewed the military person. This is to be a longer part of your paper than not.

Questions to consider during the interview:

- why did you join the service?
- how old were you when you joined?
- what was your experience at the recruiting station?
- what was the primary motivation that made you join?
- what was the reaction of your family and friends when you told them you joined?
- what did you pick the branch you joined?
- describe your orientation experience and first few days.
- where were you stationed?
- what were those first few weeks like for you?
- what was the experience transitioning from civilian to service member?
- did you keep in touch with family, friends, how?
- what was the service like for you?
- Tell me about a few of the most memorable experiences.
- did you see active combat? How was that?
- how long were you deployed or away from family?
- did your military experience influence your thinking about war or active service?
- how was the reintegration experience for you? For the family?
- what do you think is important for social workers to know about military service?

(CSWE Advanced Competency 2.1.3, 2.1.6, 2.1.9)

- 2) Each student will pick an area of interest/topic covered in class or in your readings or outside class content. The student will then discuss the topic and provide an overview of the problem/issue and its characteristics. When available provide statistical data on the topic. Explore what services are available for this population; are there any gaps in resources available? What does the most current research suggest in terms of management of this particular topic? What would be the best social work approach to management of this population?

Several sources are required and the paper should be between 8-10 pages.

(CSWE Advanced Competency 2.1.3, 2.1.6, 2.1.7)

Evaluation

This course will be graded in the following manner:

75% written assignments/class

25% Class participation via Canvas and attendance via Canvas.

Unit 1. Introduction to military life, Culture of the military

Sessions 1 - 3

Content focus - Overview of the experience of being a service member in battle; identification and discussion of combat stress, identification of the physical and mental challenges of being at war.

Required Readings:

Beder (2012), Chapter 1 – The importance of understanding military culture; Chapter 2 – No one leaves unchanged.

Beder (2016). Chapter 1 – Military cultural competence; Military culture and veteran transition; Chapter 4 – Women service members and Veterans.

Pease, J., Billera, M., & Gerard, G. (2016). Military culture and the transition to civilian life: Suicide risk and other considerations. *Social Work, 61*(1), pp. 83-86.

Flynn, M. & Hassan, A. (2010). Unique challenges of war in Iraq and Afghanistan. *J. of Social Work Education 46*(2). pp. 169-174.

Suggested Readings:

Figley - The stressor of war, pp. 11-32; Chapter 3 - Combat/operational stress adaptations and injuries, pp. 33-64.

Gawande, A. (2004). Casualties of war - Military care for the wounded from Iraq and Afghanistan. *New England Journal of Medicine, 351*(24), pp. 2471-2475.

Redmond, S., Wilcox, S., Campbell, S, Kim, A., Finney, K., Barr, K., Hassan, A. (2015). A brief introduction to the military workplace culture. *Work, (50)*, 9-20.

Unit 2. Social Work in the Military

Learning Objectives – 4,5

Sessions 10,11

Required Readings

Manske, J. (2006). Social work in the department of Veterans Affairs: Lessons learned. *Health and Social Work, 31*(3), pp. 233- 238. **E-Res**

Pehrson, K. (2002). Boundary issues in clinical practice as reported by Army social workers. *Military Medicine, 167*(1), pp. 14-23. **E-Res**

Unit 3. The lasting impact of war; Combat trauma/PTSD/TBI

Sessions 4, 5, 6

Content focus - Exploration of post-traumatic stress disorder and traumatic brain injury; impact on the service member and his/her family.

Required Readings:

Beder (2012) – Chapter 3 – Treatment of post traumatic disorder; Chapter 4 – Care coordination in military traumatic brain disorder’ Chapter 5 – Working with survivors of military sexual trauma.

Beder (2016) – Chapter 12: Traumatic brain injury and Chapter 14: Treating co-occurring disorders in the returning warrior.

Suggested readings:

In Figley, Chapter 6 - Combat stress management: The interplay between combat, physical injury, and psychological trauma, pp. 119 - 136. Chapter 7 - Secondary traumatization among wives of war veterans with PTSD, pp. 137-157
