Sun River Health is looking to hire a Social Worker for its ADHC program at our Inwood Ave, Bronx site. She / he will provide crisis intervention, biopsychosocial assessments, individual, family and group counseling and/or case management services to HIV positive patients, their partners, caregivers and family members, as well as other patients with issues related to chronic illness, aging, maternity, domestic violence or other social problems. Performs job duties in compliance with systems and job specific standards.

ESSENTIAL FUNCTIONS of Social Worker of Adult Day Health Care:

- Provides supportive counseling for a selected caseload
- Coordinates and documents community resources
- Provides a comprehensive mental health intake/assessment for all new patients referred by primary care provider or other service provider for medical and/or social/emotional issues.
- Performs a mental status exam on all new Mental Health patients and reviews with psychiatrist/primary care provider.
- Provides case management services as needed to support primary care.
- Refers those in need of other or more intensive types of mental health and/or case management services to appropriate sources, including psychiatric evaluations.
- Provides individual, group and family counseling to patients and their families.
- Provides crisis intervention/emergency evaluations to patients when required.
- Provides appropriate follow-up on referred patients.
- Ensures program's clinical services are in compliance with grants and/or funding sources.
- Develops treatment plans with patients and/or family members in a timely manner.
- Responsible for the accurate and timely completion of clinical documentation in patient records.
- Obtains necessary authorizations from various managed care companies for services rendered.

- Demonstrates knowledge of the principles of growth and development over the life span, including identification and categorization of each patient's age-specific grouping of needs, such as those for adolescent, adult and geriatric patients.
- Serve as Care manager for patients in the Impact Model.
- Support integrated care through group sessions (directly and in partnership with other Providers).

Required Education/Experience:

Master's degree required

NYS valid LMSW License preferred

CPR/BLS required from American Red Cross or American Heart Association in person class only

Sun River Health is a network of over 40 Federally Qualified Health Centers (FQHCs) providing primary, dental, pediatric, OB-GYN, and behavioral health care to over 245,000 patients annually. With a dedicated staff of 2,000 doctors, nurses, and health care professionals, we pride ourselves on delivering high-quality, affordable care to those who need it most. Sun River Health started in 1975 when four African American mothers spearheaded efforts to open our first health center in Peekskill, New York to deliver accessible, high-quality, affordable services to patients in need no matter their race, religion, income, or insurance status. Today, after 45 years of service, Sun River Health is still delivering on that promise to communities across the Hudson Valley, New York City, and Long Island.

This is a full time M-F position with benefits and salary range is \$44K-\$52K and again licensure is not required.
