

IMPORTANT EMAIL INFO FOR WURZWEILER STUDENTS

IMPORTANT:

All email communication from Wurzweiler with active Wurzweiler students will be via your YU student email address ONLY. It is very important that as of that date you use this email address for email communication with faculty and Staff, as well as actively check this address and/or forward it to your personal email address for monitoring. (Even if you have some information still coming to your personal email address, you will likely miss important information that is sent only to your "student.wssw.yu.edu" or "mail.yu.edu" email address.)

To log in to your new email address:

As a student of Yeshiva University, you are granted a university sponsored Google Apps account. The features of the account include a Yeshiva branded Gmail account, Calendar, Drive, Sites and more. When you are accepted to YU, a Google Apps account is automatically generated for you, and you will receive an email containing your login instructions. Visit the links below for more information.

To log into your YU Gmail account; visit www.gmail.com. Your username is the entire email address.

If you are a new student and would like to find out your YU Gmail username and password, [Click here](#).
