All students are part of the Torah Activities Council, which plans lectures, volunteer activities, holiday events, and outreach programs. In matters concerning more than one school, the councils involved cooperate with one another. The Student Life Committee works to enhance student experience on campus. This committee comprises student leaders, college administration, and supporting services administration.

In addition, Sy Syms School of Business and Stern College have student faculty senates that discuss issues of academic concern.

Students in all schools are represented on important school and departmental committees and actively participate in decisions regarding the educational and administrative aspects of their schools.

All full-time students who are not on probation are eligible to participate in these activities. The university encourages students to take advantage of the unequaled cultural

and recreational facilities of New York to further their particular interests, whether in the theater, music, art, sports, etc.

The Beren Campus has six NCAA Division III intercollegiate athletic teams that compete against other colleges throughout the Northeast The program includes teams in cross country, basketball, fencing, soccer, tennis, and volleyball, which are open to all students with the interest, talent, and commitment to participate. A seventh team, Softball, should achieve varsity status within the next two years. The University offers no athletic scholarships; its teams generally compete only against other non-scholarship teams.

The student-run intramural athletics program utilizes the gymnasium in the college building and rented athletic facilities. The university takes advantage of the location of its Beren Campus by making use of commercial athletic facilities to supplement its own. Students compete against other Yeshiva University students in intramural athletic events in such sports as basketball, soccer, and volleyball.

For those students interested in staying or getting in good physical condition, five fully equipped fitness centers are located in the dormitories and school building. Fitness facilities are available from the early morning through late-night hours.

Yeshiva University places the highest priority on the overall quality of a student's educational experience and on the successful completion of the academic requirements. The Department of Athletics seeks to establish and maintain an environment in which a student-athlete's athletic activities are conducted as an integral part of the overall educational experience. We strictly adhere to the principles of fair play and amateurism and place special importance on the impact of athletics on the participants rather than on the spectators. We seek to develop sportsmanship, ethical conduct, and positive societal attitudes in our student-athletes and provide an honest, fair, and open environment where the student's health and well being is protected. The Department of Athletics encourages participation by maximizing the number and variety of athletic opportunities for students. No athletic events are scheduled on the Sabbath or Jewish Holidays.
