# BUILDING EMPLOYER PARTNERSHIPS

# BUILDING EMPLOYER PARTNERSHIPS

## MAKING A CONNECTION

At Yeshiva University (YU), we understand how important it is for you to connect with a targeted pool of candidates that reflects the specific needs of your organization. Our staff at the Career Center is dedicated to building long-term relationships with employers in order to provide you with direct access to our students and to facilitate your recruiting efforts.

## OUR SERVICE TO YOU

The YU Career Center can work with you to build brand recognition and to spotlight your organization through a number of avenues at YU. We spend a good deal of time strategizing with the recruiting team's key decision-makers in order to articulate desired results. We then offer many relevant opportunities for your organization to connect with students on campus while continuously defining the most effective means for you to get to know and recruit our students and graduates.

## RECRUITING OPTIONS

Yeshiva University offers the following recruiting services to employers:

- Part-time, full-time and internship position postings
- On-campus recruiting
- Career fairs and industry forums
- Information sessions and receptions

## MAKING AN IMPACT

Our employer relationships are about more than just recruiting. We invite you to engage with our students on many levels through special events such as:

- Employer presentations
- Networking events with student clubs and organizations
- Career development workshops and panel programs
- Employer-in-residence days and case studies
- Informational interviewing
- Site visits to your organization
- Mentoring and job shadowing programs

# RECRUITING FOR THE FUTURE—WHY HIRE A YU STUDENT?

## **ETHICS, TRUST AND VALUE**

Our dual emphasis on professional ethics and personal excellence gives our students the wisdom to thrive in today's workplace.

## **PROACTIVE LEADERSHIP**

Our students are proactive leaders and take pride in these roles, both in the community and on campus. There are more than 140 student-run organizations at Yeshiva that provide leadership and educational opportunities across a variety of topics, issues and fields of interest.

## **INGENUITY AND ENTREPRENEURSHIP**

Many of our students are creative entrepreneurs who start their own businesses. Their efforts are supported by the Sy Syms School of Business's management course concentration in entrepreneurship and the Ingeborg and Ira Rennert Entrepreneurial Institute, which serve as a gateway to the "real world" of entrepreneurial business. Through these two avenues, traditional classroom teaching is supplemented by providing a variety of practical experiences, including seminars, workshops, coaching, mentoring programs, internships and consulting engagements within and outside of the classroom setting.

## **COMMUNITY ENGAGEMENT**

Being involved with the community is something our students take very seriously. Community service often begins at the high school level and continues as a focus throughout college and beyond. The students' connection to the community at large only makes them more well-rounded and insightful candidates.

## **PROFESSIONAL SKILLS**

The students' rigorous dual curriculum demands an outstanding work ethic, as well as excellent time management and organizational skills. The requisite Jewish studies sequence produces graduates with strong analytical skills, well-equipped to handle the multi-tasking and creative problem solving sought after in today's market. In addition, many students spend a year abroad, adding another dimension to their career preparation and maturity.

## GRADUATE PROGRAM HIGHLIGHTS

Yeshiva University offers a variety of exciting graduate programs leading to successful alumni in an array of industries. At the Sy Syms School of Business, talented professionals emerge from the Executive MBA Program and the Master of Science in Accounting Program. Liberal arts programs in math and quantitative economics produce highly analytical graduates entering various sectors. Social work, education, religious studies and psychology master's and doctoral students are also ready to be successful professionals in both the for-profit and non-profit arenas.

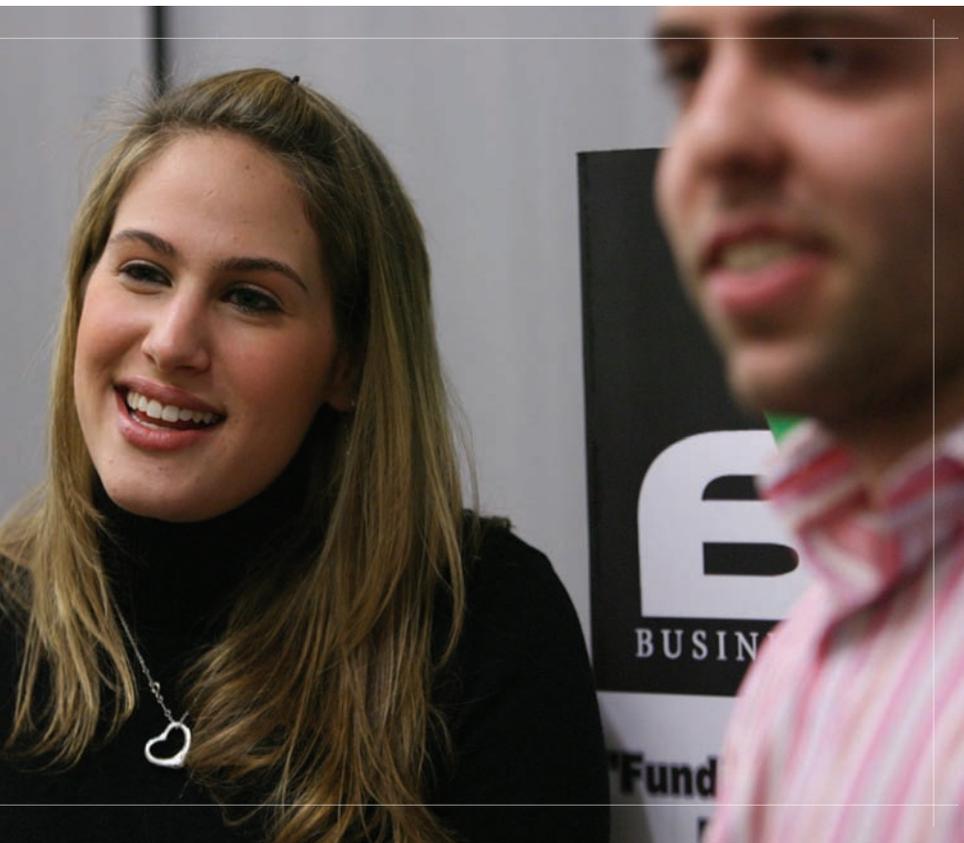

# STUDENT SPOTLIGHTS

## EACH SEMESTER...

We highlight particularly accomplished students who have worked with our office and secured an internship or job in their field of choice.

### Examples include:

- A Yeshiva College economics student who obtained internships at Mayor Bloomberg's office, as well as at Soros Fund Management
- A Sy Syms School of Business accounting student who utilized on-campus recruiting to obtain an internship at Ernst & Young
- A Stern College for Women English student who obtained a summer internship at Fox News
- A Sy Syms School of Business marketing senior who met representatives of Rapaport International at the Career Center Job Expo and obtained a full-time offer for employment
- A Stern College for Women political science student who found a full-time position with AIPAC through the Career Center
- A Yeshiva College student who met representatives from ABC News at the Career Center Job Expo and obtained a summer internship
- A Sy Syms School of Business finance student who met with an alumnus through a Career Center on-campus initiative and obtained an internship at JPMorgan Chase
